

Train Information System (TIS) for terminals

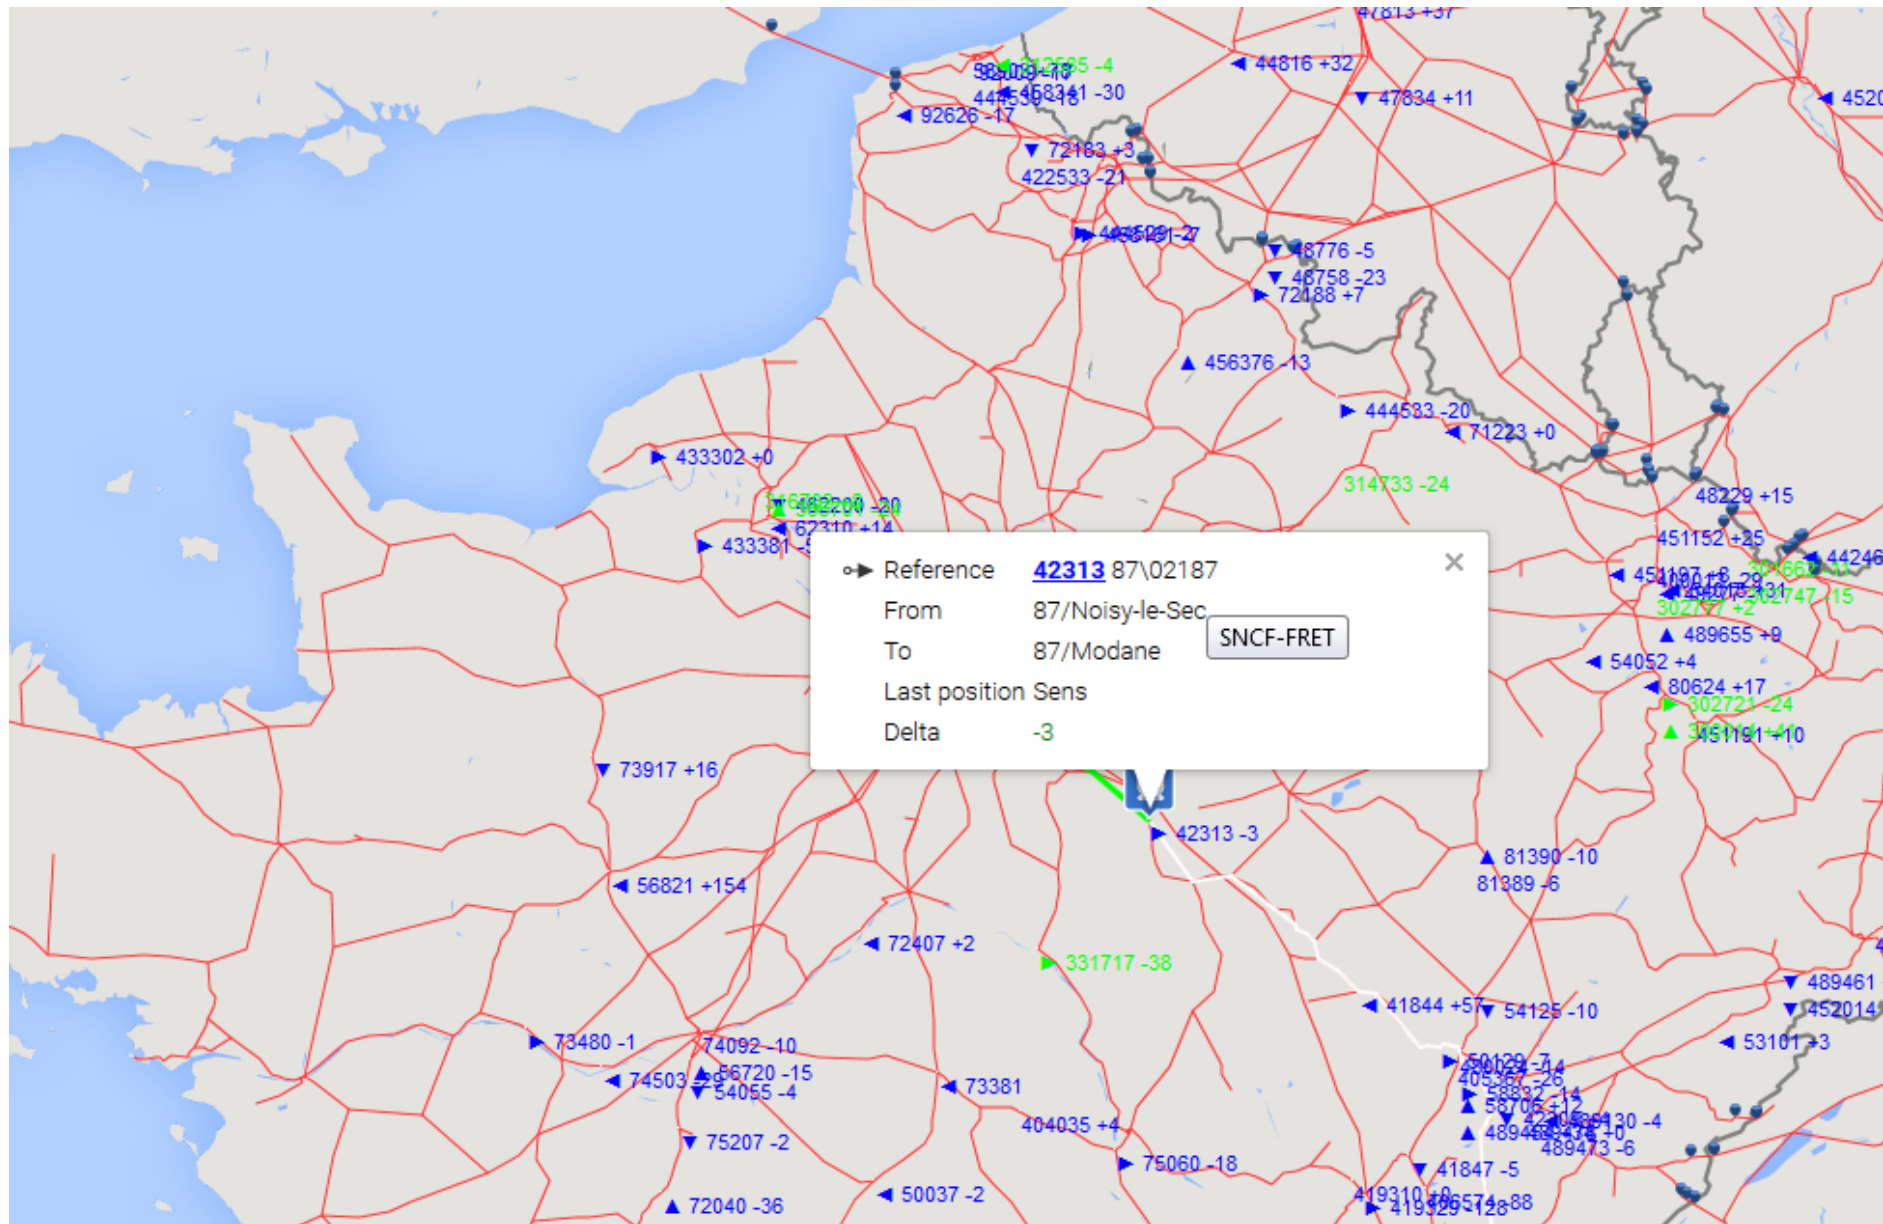

TAG - 23 September 2015

Co-financed by the European Union
Trans-European Transport Network (TEN-T)

easier, faster, safer

TIS is a system for real-time international train run monitoring

For each train, TIS gives precise & real time information

TIS is used by 24 infrastructure managers

How can a terminal be connected to TIS?

1. Contact RailNetEurope, the owner of the system
support.tis@rne.eu (Josef Stahl)
2. Get 2 to 3 months trial period
3. Contractualise with RailNetEurope
 - fees might be applicable from 2016: around 300 to 900 € per month + a set-up costs of around 6,500 €
 - RNE gets the approval from the relevant RUs to share the data of their trains with the terminal (already for the trial period)
