Setting up the railway undertaking advisory group

Erik van der Linden

June 27, 2012

Fast track your rail freight

Welcome!

Corridor C/2 appreciates your participation to this meeting

We value the opportunity you give us to establish a fruitful dialogue between corridor C/2 and railway undertakings

Regulatory framework

Regulation 913/2010: The management board shall set up [an] advisory group made up of railway undertakings interested in the use of the freight corridor. This advisory group may issue an opinion on any proposal by the management board which has consequences for these undertakings. It may also issue own-initiative opinions. The management board shall take any of these opinions into account.

Opinions

- We have invited today all railway undertakings which we believe could potentially be interested by the use of Corridor 2
- We value the diversity of your opinions
- Unanimity is not a requirement
- Our intention is to collect all opinions on any given topic

Topics

- Please let us know what topic would be of interest to you
- Please fill out the questionnaire
- Suggestions

Topic	Topic
pre-arranged paths	path allocation procedures
corridor information document	coordination of works
traffic management	investment projects (ERTMS, bottleneck removal, long trains, gauge, etc.)
corridor routes	others

- We will have to address some of these topics in the coming quarters because of regulatory requirements
- Specifically, regulation 913/2010 foresees a consultation of “applicants” before the implementation plan is submitted to the Executive Board (before May 2013)

Logistical organisation

- Our intention is to set up advisory group meetings 2 or 3 times a year
- Direct participation or representation through industry organisations (CER, ERFA, etc)
- Working groups to discuss specific topics?
- The minutes of the meeting will be published on www.corridorc.eu

The sole responsibility of this publication lies with the author.
