

# Removal of the Crocodile system in BE

RAG RFC North Sea - Med  
May 27<sup>th</sup>, 2015

**Document de Référence du Réseau - Annexe C.7**  
**Netverklaring - Bijlage C.7**

ETCS 1 en service  
ETCS 1 in dienst

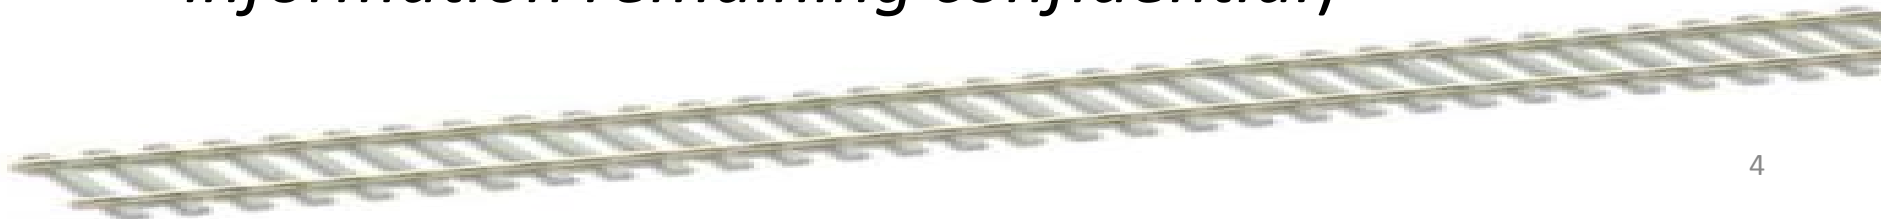

- 2013
- 2014
- 2015
- 2016

Given the foreseen deployment of ETCS in Belgium and the Royal Decree of 9 July 2013 as far as the removal of the Memor crocodile is concerned on the lines equipped with ETCS for the 1<sup>st</sup> January 2016,

=> 3 questions

- (1) indicate the measures you have taken to comply with this Royal Decree as far as the removal of the Memor crocodile on the lines equipped with ETCS is concerned.
  
- (2) Do you or did you meet difficulties with the implementation of these measures, if yes comment please.
  
- (3) Indicate in terms of traffic (tonnes/km and train/km) in how far this affects / could affect your operation? (*possible to make this information remaining confidential*)

The sector sent a joint letter to the Belgian Minister for Transport, Mrs Jacqueline Galant in April 2015

An analysis of the situation is currently ongoing, and the replies to the additional questionnaire sent the 8<sup>th</sup> of May would greatly support this analysis.
